

PROJECT FINANCE SERVICES

Barkat & Co. delivers specialized Project Finance advisory, structuring long-term capital for greenfield and brownfield industrial projects, aligning debt repayment with cash generation milestones.

CORE SERVICES & SCOPE OF WORK

Our professional advisory services encompass a complete spectrum of regulatory and planning offerings:

- **Detailed Project Report (DPR):** Drafting comprehensive technical-economic feasibility reports and financial viability models.
- **Capital Structure Optimization:** Balancing debt-to-equity ratios, promoter contributions, and syndicated term loans.
- **Milestone-Based Structuring:** Aligning moratorium periods and repayment schedules with plant commissioning and revenue generation.
- **Syndication & Institutional Liaison:** Negotiating multi-bank financing consortia and institutional lending terms for large-scale projects.

KEY BENEFITS FOR ENTERPRISES

ADVANTAGE	OPERATIONAL IMPACT
Customized Funding	Secures long-term capital tailored to the exact gestation and payback cycles of industrial projects.
Optimized Debt Service	Prevents premature cash outflows by incorporating structured moratoriums during construction phases.
Credibility & Scale	Enhances project viability through professionally vetted DPRs and robust banking syndication.

APPLICATION & ADVISORY PROCESS

- **Feasibility Study:** Analyzing project scope, capital expenditure, and market demand.
- **DPR Compilation:** Building rigorous financial models and engineering summaries.
- **Syndication:** Presenting proposals to financial institutions and institutional lenders.
- **Financial Closure:** Executing loan agreements and managing phased disbursement milestones.

FREQUENTLY ASKED QUESTIONS (FAQS)

1. What is the difference between greenfield and brownfield project finance?

Greenfield financing funds brand new facilities built from scratch, while brownfield financing supports the expansion or modernization of existing operational plants.

2. Why is a Detailed Project Report (DPR) critical?

It serves as the primary evaluation document for lenders to assess technical feasibility, financial returns, and risk mitigation strategies.
