

## STRUCTURING & VALUATION SUPPORT

Barkat & Co. provides expert capital restructuring, share splitting, promoter holding alignment, and valuation modeling to maximize public issue market capitalization.

## CORE SERVICES & SCOPE OF WORK

Our professional advisory services encompass a complete spectrum of regulatory and planning offerings:

- **Capital Restructuring:** Converting private entities into public limited corporations and optimizing authorized share capital.
- **Promoter Holding Alignment:** Structuring pre-IPO shareholding to comply with statutory lock-in and minimum public offer norms.
- **Enterprise Valuation Modeling:** Executing DCF, comparable company analysis, and NAV valuations for optimal pricing.
- **Tax-Efficient Holding Design:** Advising on corporate layering and promoter group classifications.

## KEY BENEFITS FOR ENTERPRISES

| ADVANTAGE             | OPERATIONAL IMPACT                                                                              |
|-----------------------|-------------------------------------------------------------------------------------------------|
| Maximized Valuation   | Positions the enterprise for peak market capitalization and optimal equity dilution [cite: 95]. |
| Regulatory Compliance | Aligns capital structure strictly with SEBI ICDR guidelines.                                    |
| Tax Optimization      | Minimizes tax liabilities during pre-IPO corporate reorganizations [cite: 95].                  |

## APPLICATION & ADVISORY PROCESS

- **Cap Table Review:** Analyzing current shareholding patterns and ESOP pools.
- **Valuation Benchmarking:** Comparing peer group multiples and market sentiment.
- **Structuring Execution:** Filing necessary corporate resolutions for share splits or conversions.
- **Finalization:** Locking in target valuation ranges for the prospectus.

## FREQUENTLY ASKED QUESTIONS (FAQS)

### 1. How is pre-IPO valuation determined?

Through a combination of discounted cash flow (DCF) models, earnings multiples of listed peers, and asset valuations.

### 2. Why is capital restructuring necessary before an IPO?

To meet statutory public float requirements, authorize sufficient share capital, and streamline promoter holdings.
