

POWER SUBSIDY & INCENTIVES (ELECTRICITY DUTY EXEMPTION)

Under the Haryana Electric Vehicle Policy-2022, the state government offers a 100% electricity duty exemption for up to 20 years to eligible manufacturers in the EV sector, reducing operational power costs and fostering a robust ecosystem for electric mobility.

QUANTUM OF ASSISTANCE & SCOPE

TARGET SECTOR	EXEMPTION BENEFIT	DURATION / CONDITIONS
EV, EV Components, Batteries & Charging Infrastructure Manufacturers	100% Exemption from Electricity Duty	20 Years (Applicable solely to power used directly in manufacturing processes)

ELIGIBILITY CRITERIA

- **Commercial Production Date:** Must have commenced commercial production on or after **July 10, 2022**.
- **Enterprise Scope:** Open to new and existing micro, small, medium, large, and mega/ultra-mega projects meeting investment thresholds.
- **Geographical Focus:** Available statewide, with strategic focus on encouraging development in B, C, and D category blocks and approved industrial estates in Block A.
- **Special Mandate:** Large and mega projects must establish compliant battery disposal and recycling facilities.

APPLICATION PROCESS & TIMELINES

Filing Window: Applications must be submitted electronically via the Department of Industries & Commerce web portal within **three months** of the electricity connection release.

Mandatory Documentation:

- Udyam Registration Certificate (URC) and incorporation proofs.
- Detailed Project Reports (DPR) and plant/machinery investment proof.
- Specific data on electricity usage and commercial production commencement date.

PENALTIES & COMPLIANCE

Misrepresentation or misuse of incentives results in strict penalties, including repayment of exempted duties with **12% compound interest**, legal action, and exclusion from future state incentives.

FREQUENTLY ASKED QUESTIONS (FAQS)

1. What is the Electricity Duty Exemption scheme?

It provides a 100% exemption on electricity duty for up to 20 years to EV and component manufacturers in Haryana.

2. Who is eligible?

EV, battery, component, and charging infrastructure manufacturers starting commercial production on/after July 10, 2022.

3. Does the exemption apply to all electricity consumed?

No, it applies exclusively to power used directly in manufacturing processes, not for resale or other business uses.
