

NATIONAL HORTICULTURE MISSION (NHM) SUBSIDY SCHEME

The National Horticulture Mission (NHM) scheme provides a robust capital investment subsidy framework for constructing, expanding, or modernizing cold storage units and infrastructure for horticultural produce. Barkat & Co. delivers specialized advisory and technical loan filing support to maximize capital subsidies and optimize post-harvest storage management across India.

OBJECTIVES OF NHM SUBSIDY

- Encourage the adoption of advanced, energy-efficient storage technologies to preserve produce quality and longevity.
- Minimize post-harvest losses and wastage of perishable horticultural commodities through superior infrastructure.
- Provide financial incentives for integrating innovative Controlled Atmosphere (CA) systems and modern insulation methods.

PATTERN OF ASSISTANCE AND SUBSIDY STRUCTURE

1. Financial Subsidy Tiers

- **General Areas:** Subsidy rate of 35% of the total capital cost.
- **Special Areas:** Subsidy rate of 50% of the total capital cost in designated regions including North-Eastern States, Hilly States, and Scheduled Areas.

CATEGORY / REGION	SUBSIDY RATE (% OF CAPITAL COST)	ELIGIBLE CAPACITY & FOCUS
General Areas	35% of capital cost	Multi-chamber cold storage up to 5,000 MT
Special Areas (North-East, Hilly, Scheduled)	50% of capital cost	Multi-chamber cold storage up to 1,000 - 5,000 MT

2. Capacity Requirements & Tech Subsidies

- **Storage Capacity:** Applicable to facilities with capacities up to 5,000 MT (up to 1,000 MT in North-Eastern states).
- **Controlled Atmosphere Generator:** Up to ₹1.25 crore per unit.
- **Specialized CA Doors:** Up to ₹2.5 lakh per door.
- **Modernization Components:** Includes PLC equipment and advanced thermal insulation technologies, adjusted by specific project appraisals.

ELIGIBILITY CRITERIA AND QUALIFYING CONDITIONS

- **Eligible Entities:** Open to private entrepreneurs, companies, cooperatives, and public sector units involved in horticultural storage.

- **Technical Compliance:** Projects must incorporate energy-efficient multi-chamber designs and comply strictly with NHM technical standards and protocols.
- **Appraisal Requirement:** All applications must be credit-linked and supported by a rigorous assessment from an NHM-empaneled technical appraisal agency.

APPLICATION & DOCUMENTATION REQUIREMENTS

- Detailed Project Report (DPR) outlining technical specifications and expected post-harvest impact.
- Credit linkage documentation and technical appraisal clearance.
- Complete KYC documents, facility layout designs, and compliance proofs with NHM standards.

ROLE OF BARKAT & CO. IN NHM SUCCESS

We provide end-to-end execution support across Haryana, managing technical consultations, DPR preparation, liaison with NHM authorities, and ensuring swift subsidy disbursement upon project verification.

FREQUENTLY ASKED QUESTIONS (FAQS)

1. What types of projects qualify under the NHM cold storage scheme?

New construction, expansion, or modernization of multi-chamber cold storage units utilizing energy-efficient and Controlled Atmosphere (CA) technologies.

2. What is the maximum financial subsidy available?

35% of capital costs in general regions and up to 50% in special regions like North-Eastern and Hilly States.

3. How is the subsidy disbursed?

Disbursements are credit-linked and back-ended, released upon successful project completion and functional verification by designated authorities.

4. Are existing cold storage units eligible for modernization grants?

Yes, existing units seeking expansion or technological upgrades can apply provided they meet NHM efficiency benchmarks.

5. How does Barkat & Co. accelerate project approval?

By handling comprehensive documentation, technical appraisal coordination, and compliance verification to secure maximum eligible financial incentives.
